10:05

Keynote Presentation - Integrating digital innovations into estates and facilities (Confirmed)

Steven Hipwell

Digital lead for Lancashire and South Cumbria's New Hospitals Programme NHS

I'll cover digital transformation and innovation work being carried out in Lancashire and South Cumbria NHS Trusts, including interoperability of systems, smart lighting and sensing, Building Management Systems, drones for building maintenance and robot use cases and benefits.

10:25

Charting a Greener Future: Sustainability and Net Zero Initiatives in Health Estates panel discussion

Dr Philip Tamuno

Head of Sustainability and Net Zero
Barking, Havering and Redbridge University Hospitals NHS Trust & Barts Health NHS Trust

This panel discussion delves into environmental responsibility within the NHS Estate. Esteemed experts will discuss innovative strategies and best practices for achieving net-zero carbon footprints, reducing waste, and adopting sustainable practices within healthcare infrastructure. With a focus on the healthcare sector's unique challenges, the panel aims to inspire actionable solutions and foster collaboration towards a more sustainable and resilient future for health estates.

Speakers:

● Ian Stenton, National Sustainability Programme Manager at NHS England (Invited)

● Dr Philip Tamuno
